SUCTIA

CONFERENCE

June 2-3, 2022

ABOUT SUCTIA

SUCTIA is a Erasmus + Strategic Partnership project funded for the years 2019-2022.

The aim of the project is also to raise awareness and shift the internal culture of our institutions towards internationalization, thus creating a systemic change in our institutions and in European Higher Education.

SUCTI Academia is built on SUCTI, which was a three-year initiative (2016-2019) approved for funding under the European Commission's Erasmus+ – KA2 Strategic Partnerships for higher education focusing on the internationalisation of administrative staff. The project was coordinated by the URV, Universitat Rovira i Virgili (Tarragona, Spain). SUCTI has already shown that systemic change through trainings for administrative staff is a key to success of the international university and the impact of this change has been measured and assessed.

Shifting a culture is only possible through internationalizing all groups of higher education institutions can we truly talk about international universities. While many activities exist for internationalising students and the predecessor project SUCTI concentrated on the administrative staff, SUCTI Academia now aims at empowering the third pillar, the academic staff, by providing them with knowledge and skills related to their university's internationalisation process.

Academic staff is expected to internationalize both the teaching as well as research in their academic work while it may happen that they not equipped with the right tools and skills to deliver it properly. The SUCTIA Conference is the final event of the project that will wrap it up as well as present the achieved goals, expected and unexpected results and its partners conclusions.
